

Demir Home (Real Estate Investment Joint Stock) Company

It is a construction company established in Alanya in 2010 in order to produce projects with high investment value in and around Antalya.

Leaving behind 12 years, it continues its steady growth momentum with its experience.

Demir Home, which operates in the fields of urban transformation project, restoration - renovation and tender - contracting; It has adopted the principle of providing world-class services in every sector in which it operates, and is constantly working to strengthen the Turkish economy with its huge investments.

“Our experienced team is always ready to assist you in the entire process, from design to construction, regardless of the size of the project.”

Vision

To be honest and fair in our relations with our customers, employees and suppliers.

To be a construction company that spreads to new areas by developing important projects that prioritize customer interests in the sector we serve.

Mission

As an institution that produces projects on a global scale by using all the tools of modern architecture in the most competent way, we act with a service understanding that takes excellence as a principle.

While building living spaces, we try to touch the human spirit by prioritizing comfort and aesthetics as well as technology.
