

# About us

AKR Construction was founded in 1977 under the name Şimşek Construction in Ankara. From 2013 the company began construction work in Alanya. Akr Group has completed more than 33 projects in Ankara, 6 modern residential complexes with rich infrastructure in Alanya, commercial properties and luxury villas. At the same time, several residential facilities are under construction, there are investment projects and land in region of Alanya. Construction is carried out in accordance with the plan and is completed on time. All constructed objects are in demand and successfully sold to citizens of Turkey and many foreign countries: Russia, Germany, France, Denmark, Sweden, Iran, Iraq, Canada, Ukraine, Kazakhstan and many other countries.

The company's goal is the construction of residential projects with high standards of modern life.

Effective management, work with well-known brands, careful study of the growing needs of customers and their implementation ensure the success of Akr Group.

We strive to contribute to the creation of a constantly evolving future society. AKP Group provides jobs with its investments, uses its wide network of services, information and cooperation, constantly studies and sets high construction standards that will be useful for the national economy.
